

## CAREER SERVICES

Vet Tech Institute of Houston will help you before and after you graduate, at no additional cost. During your time on campus, the career services office will guide you in determining a career path and assist you with externship selection. The school cannot guarantee placement in the veterinary technology field, but can provide contacts and guidance during the placement process.

Additional services:

- Resume writing skills
- Interviewing techniques
- Arranging job interviews
- Salary negotiation

These services may be available for years after graduation by alumni in good standing.

**95%**

of VTI graduates are  
working in the veterinary  
care industry \*

\*Graduation and employment rates are for students entering the program between January 2021 and December 2021. Of the 221 students available for graduation, 60% of students completed their degrees. The third-party verified employment rate for these graduates as reported to ACCSC was 95%. More students may have graduated or been employed subsequently.

*"VTI was such an amazing experience! It is fast-paced but with hard work and dedication it's possible. Shout out to the faculty and staff for the knowledge and skills I gained due to their guidance. A big thank you to them for helping me find my dream job in the Lab Animal Field. Definitely recommend this program to anyone truly interested in the Vet Tech field."*
